# **Newspaper Advertising Is Better**

Advertising in print is more than just a sophisticated, cheaper alternative to television and radio: it informs in a classy way. While many people can use TiVo® or satelite radio to avoid on-the-air commercials, newspaper advertising allows businesses to thoroughly explain their product without interrupting everyday life.

At the Hometown Journal, we know how important that difference can be, and our prices simply can't be beat. We will work with you until you are satisfied period. Imagine having your ad in the same place thousands of people go for their neighborhood news every week. If it sounds too easy, that's because it is.

We know you'll be satisfied with our superior service. Please review this brochure and consider the Hometown Journal as a way to give your business that personal touch.
